

22nd BIENNIAL SOUTHERN SILVICULTURAL RESEARCH CONFERENCE

March 22 - 24, 2023
Nacogdoches, Texas

ANNOUNCEMENT AND CALL FOR PAPERS

Abstract submission deadline: October 15, 2022

General Information: The 22nd Biennial Southern Silvicultural Research Conference will be co-hosted by Stephen F. Austin State University and the USDA Forest Service, Southern Research Station. The meeting will be held at the Fredonia Hotel and Convention Center in historic downtown Nacogdoches, Texas. The conference will consist of a poster session, four concurrent sessions, and an optional field tour.

Contributed Oral Presentations and Posters: Concurrent session papers and posters can be on any aspect of silviculture in the southern region. Papers and posters will be selected based on a submitted abstract. To submit an abstract for consideration please visit www.bssrc.org and select either the "Submit Oral Abstract" or "Submit Poster Abstract" from the "Call For Papers" tab. Upon completing the online submission form click on the "Submit" button at the bottom of the form. Abstracts are limited to 250 words or less and must be submitted no later than **6:00 pm (eastern), October 15, 2022**. A notice confirming receipt of the abstract will be sent to the email address listed in the form within two weeks of its arrival. If you do not receive confirmation, contact Brian Oswald (boswald@sfasu.edu) to report the difficulty. A notice of acceptance or rejection will be sent no later than **October 30, 2022**.

At this time, we do not anticipate presentation time slot limitations. However, if that problem arises, some papers submitted for oral presentation may be accepted as a poster presentation. Oral presentations will be limited to 20 minutes followed by 5 minutes for questions. We will continue the tradition of the awards competition for the best student oral and poster presentations.

Publication: Speakers are required to submit complete papers for the conference proceedings, which will be published as a General Technical Report by the Southern Research Station. Authors should submit a final manuscript (preferably MS Word) by email no later than **June 14, 2023**. Poster presenters may choose to submit a complete paper, an extended research summary, or neither. Abstracts by themselves will not be published in the GTR. Complete papers are limited to 4000 words and no more than eight tables or figures (combined). Extended abstracts are limited to 1000 words, one table, and one figure. Detailed instructions for preparation and submission are available on the conference web site. Peer review and editorial review are expected prior to submission for publication.

Field Tour: A field tour is scheduled for the last day of the conference, Thursday, March 24. This presents an excellent opportunity to see ongoing research and management in the region.
